Outside Talent Sparring For the Bonanza.

WOULD BUY AT \$300,000

PROPERTY ADJOINS THE ANNIE LAURIE AT GOLD MOUNTAIN.

The air is still laden with rumors that an outside combination, presumably Oregon talent, is yet sparring for the Golden Star company's mines in the Gold Mountain district. The matter was mentioned several days ago, but nothing tangible had then developed. It now appears that there was good grounds for the rumor, as representatives of the purchasing crowd are known to have been persistently pursuing their efforts to land the prize.

It is learned from a pretty reliable

It is learned from a pretty reliable source that the combination wants the source that the combination wants the entire property or nothing, and to acquire it they are understood to be willing to pay \$1 a share, or \$300,000. The sticking point is said to have been found at the door of the Snyder-Kimberley crowd, which a few months ago bought something like 140,000 out of the 300,000 shares of capital stock. It appears that they were asked to name a pears that they were asked to name a price at which they would part with their holdings and on their declining to do so, the proposition was advanced that they might name a give or take figure, the representation being made that the negotiators could deliver the other 160,000 shares at a price which might be named. The minority holders, however, are understood to be averse. however, are understood to be averse to doing anything at this time, one way

are now being taken ground. It adjoins the Annie erties are believed to be identical. Three tunnels have been driven in on the vein and the lower one, which has reached a length of 700 feet, is now at the point where it will soon connect with the rich ore chutes opened above, and that accomplished, it will stand as a close rival of the now famous Annie aurie itself.

That outside talent secure it

it up, there will be none to deny that a sure winner had been secured.

TWO CLAIMS FOR \$23,000.

Copperfield Mining Co. Files Deeds to Bingham Mines.

A quit claim deed was filed for record dual increase in values up to \$14.06, and as all the richest ore in their neighbor, the famous Cougar, clings to the hanguage ware corporation, for a consideration approximating \$23,000, the Charles A. Dana and the Agnes No. 2 mining claims, situated in West Mountain district. According to instruments of consideration and the Agnes No. 2 mining claims, situated in West Mountain district. According to instruments of considerations. trict. According to instruments of conveyance, dated November 4, 1899, and filed for record at the same time, Mr. paying Henry W. Lawrence \$9,275 and Thomas Marshall \$825 for their respective interests in the Dana claim and Letitia Kelsey \$1,727 and the heirs of the estate of Mary A. M. Kelsey \$888 for their third interest in the Agna \$100 for their th

LIFE IN SOUTHERN CAMPS.

Col. Hawkins Says Such ...ctivity Has Never Been Equaled.

Colonel R. A. Hawkins returned from a several days' trip into the Beaver Lake and surrounding camps, as well as Frisco, yesterday, and reports that never in the history of the counwas so much activity shown. The Beaver Lake and Skylark prop-

erties are both looking exceedingly well, and he feels sure they will give a good account of themselves in the near future. The old Savage or Hoosier near future. The old Savage or Hoosier Boy, in Star district, is again among the producers. It is being operated un-der a bond and lease secured by Colo-rado parties from the owners, the Messrs. Tatum Brothers of New York, and they are fast bringing it back to its early day form. The colonel learned during his trip

that a rich body of galena ore had been struck by some prospectors not far north of the Copper Gulch mine. It was said to be something big, but par-ticulars were unobtainable. Down at Frisco, the colonel said, ev-erybody was worked up over the show-ing made in the Imperial

ing made in the Imperial, and great activity was reported all along the copper zone of that district. The Horn Silver he reported to be in excellent form, with the mill running steadily on a constant stream of ore from the mine. He was informed that the 1300 level was being timbered and that the being timbered and that the mine was giving a most flattering account of

Regarding the purposes of his trip or who accompanied him, the colonel was non-communicative, stating that it would be premature in him to discuss his affairs at this time. The whole country, he declared, was coming to the front in leaps and bounds and another the state of t other year would witness a stampede.

ANCHOR AND QUINCY.

D. C. McLaughlin Tells of Operations at Each.

D. C. McLaughlin of the Anchor and Quincy properties, Park City, came in Henderson, E. Hemmingway, from camp yesterday and will remain in twon a day or two counseling with political managers.

Questioned on the condition of affairs at the Anchor, Mr. McLaughlin Hedden, J. M. Holverson, E. Z. Hortz, Henry (2). Hosman, George, Halgren, C. W.

said there was nothing particularly new to report. The company's mill is putting through on an average eighty tons of crude ore per day and is making a record as a saver of values second to no similar plant in the country. The mine is responding generously to the work of development and at no time did

the future look more promising.

As to whether the property would soon get into the dividend list, Mr. Mc-Laughlin would not say, but when pressed he intimated that they would hardly reachested. hardly reach that desirable point be-fore the end of the year. At the Quin-cy, he said, everything looked encouraging. Some ore had been found since operations began, but not enough to boast about. A station is now being operations pegan, but not enough to boast about. A station is now being cut at the 400 level and a new com-pressor plant is being instafled, and within a few days sinking will be re-

A FINE MAP AND FOLDER.

On Gold Fields of Oregon By Colonel Pat Donan.

The general pasenger department of the Oregon Railroad & Navigation company has just issued a most attractive and comprehensive map and write-up descriptive of the gold fields of eastern Oregon, the subject matter being from the pen of that inimitable descriptive writer, Colonel Pat Donan. The map is gotten up in fine style and shows not only all the mining camps from the Seven Devils district and the Snake river on the east to the camps of Granite county on the west, but it also shows every city, town, 'allroad, wagon

shows every city, town, ailroad, wagon road, river, creek and canal in the whole section.

The producing mines are all shown, as are also a large number of prospects, and a handier work of reference it would be hard to find. Colonel Donan's write-up covers sixteen pages, embraced in seven interesting chapters,

Harris, Max Mrs. Higby, Clara Mrs. Ventrers, Sadie. Ventrers, Sadie

and to read them, with the map as a guide, is equivalent to being well-post-ed on the entire country covered.

Mining Notes.

Four cars of Petro ore were on the market yesterday. The Blue Bird company has levid a 1/2 cent assessment.

J. B. Weimer is expected back from the East tomorrow or next day. The Bullion-Beck was in with anoth-er four-car shipment of ore yesterday. The Conklin sampler reported thireen cars of ore from Tintic yester

Two cars of ore were marketed yesterday by leasers of United States

The Centennial-Eureka company marketed ten cars of copper ore yes-

terday. A. M. Lennan and Wilfred Scott were

registered from Dawson at the Cullen The Idaho Recovery company report-

ed at the local refinery yesterday with 250 pounds of cyanides. Senator Clark's Ophir Hill was rep-

resented in the market yesterday by seven cars of concentrates. Superintendent A. K. Farnsworth returned to the Bullion-Beck mine yesterday, after a short sojourn in the city.

John J. Vandemore, state representative of the Scientific American, is in the city with the visiting delegation of Woodmen from Colorado.

The Lower Mammoth company's new 50-horse-power electric motor reached Omaha yesterday, and barring acci-dent it will have arrived and been in-

and that accomplished, it will stand as a close rival of the now famous Annie Laurie itself.

That outside talent should be anxious to secure it, therefore, is not strange, and should it be successful in rounding it up, there will be purpose of so arranging his artains that he can make a trip into Mexico, when he will leave in a few days in search of gold properties for the English syndicate which he represents. He expects to be absent all of the complex of the complex of the purpose of so arranging his artains that he can make a trip into Mexico, when he will leave in a few days in search of gold properties for the English syndicate which he represents. He expects to be absent all of

C. E. Hudson is in receipt of most C. E. Hudson is in receipt of most-flattering news from the South Cougar, near Granite, Ore. The vein had been cross-cut for forty-one feet and no signs of the hanging wall were in sight. Commencing with \$1.25 where the vein was cut, ten assays taken from there to the face showed a gra-dual increase in values up to \$14.06, and as all the richest ore in their neighbor.
